

AVK STIRRUP

730/6-001

For AVK universal tapping saddles, stainless steel

The AVK stirrups are made of high grade stainless steel and are covered with an NBR rubber liner for optimum protection of the pipe surface. The stainless steel bolts have an anti-friction coating to avoid galling of the threads. Conical POM washers under the bolt heads enable easy angling of the bolts providing optimum flexibility and minimum friction at installation.

Product description:

Stainless steel stirrup for AVK universal tapping saddles

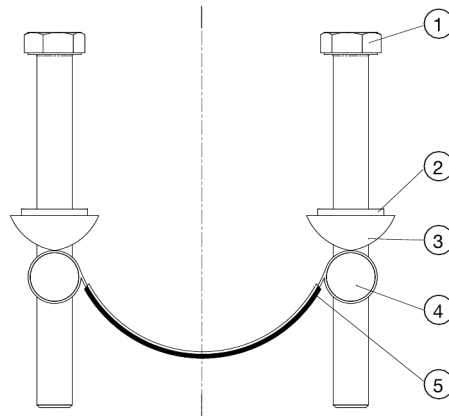

Features:

- 50 mm wide stirrup of stainless steel AISI 304 with rubber liner inside
- M16 bolt of stainless steel A2 with antifriction coating
- Conical POM washers provide optimum flexibility and minimum friction at installation
- M16 cylinder bush, drilled and tapped, with the stirrup plate rolled around to ensuring long life and passive safety without the use of welding

Expect ... **AVK**

Component list:

1. Bolt	Stainless steel A2	4. Stirrup bushing	Stainless steel 1.4301
2. Washer	Stainless steel A2	5. Lining	NBR rubber
3. Support washer	POM		

Components may be substituted with equivalent or higher class materials without prior notification.
